

# Personal Dashboard

The minimal dashboard I use to stay focused in 2022

focus on progress,  
not perfection.

## UI/UX Design Learning Roadmap

### Step 1: Know what you're getting into

- Know why companies hire product designers
- Know what problems you're expected to solve for the company
- Know the job responsibilities of a Product Designer
- Should designers learn how to code? (YouTube)
- Know the difference between UI and UX, and why you need to be good at both
- Know the importance of visual design skills
- Know that UI/UX design is NOT graphic design

### Step 2: I understand the process

### Here's the link to the Notion Template:
